File Management and Storing for Students System

[www.fmsss.com](http://www.fmsss.com)

# SIMPLIFIED VALIDATION BOARD

	EXPERIMENT 1	EXPERIMENT 2
Customer Segment	Cater the whole Gordon College Faculties and Students.	Cater CCS Faculty and Students only.
Problem	Bulking files, storage limitation, and incompetent file organization and limited resource handling.	Bulking files, storage limitation, development files, incompetent file organization, and limited resource handling.
Solution	Developing an open source-simple and straightforward file storage without recovery support.	Developing an organization-centralized file storage with searching and recovery support.
Experiment	Deploy the file storage system in a wide-based ecosystem. 85% of the respondent users reported system performance failure.	Deploy the system in a faculty-limited ecosystem. Only 5% of the respondent users reported system performance failure.

# SIMPLIFIED VALIDATION BOARD

	EXPERIMENT 1	EXPERIMENT 2
Success Criteria	30% of the user respondents within the whole school prefer to use the existing cloud storage.	70% of the user respondents within the CCS organization opts to try the FMSS System.
Result	Decrease in the number of problems in file organization and a breakthrough in storage-related problems. 30% of them reported for system failure.	Decrease in the number of problems in file organization and a breakthrough in storage-related problems. Also helped in finding files, file transfer speed, and file recovery for accidental deletion. 70% was satisfied.
Action	PIVOT	PURSUE

# SUMMARY REPORT (50 RESPONDENTS)

**How often do you encounter difficulties in storing and accessing your academic-related files?**

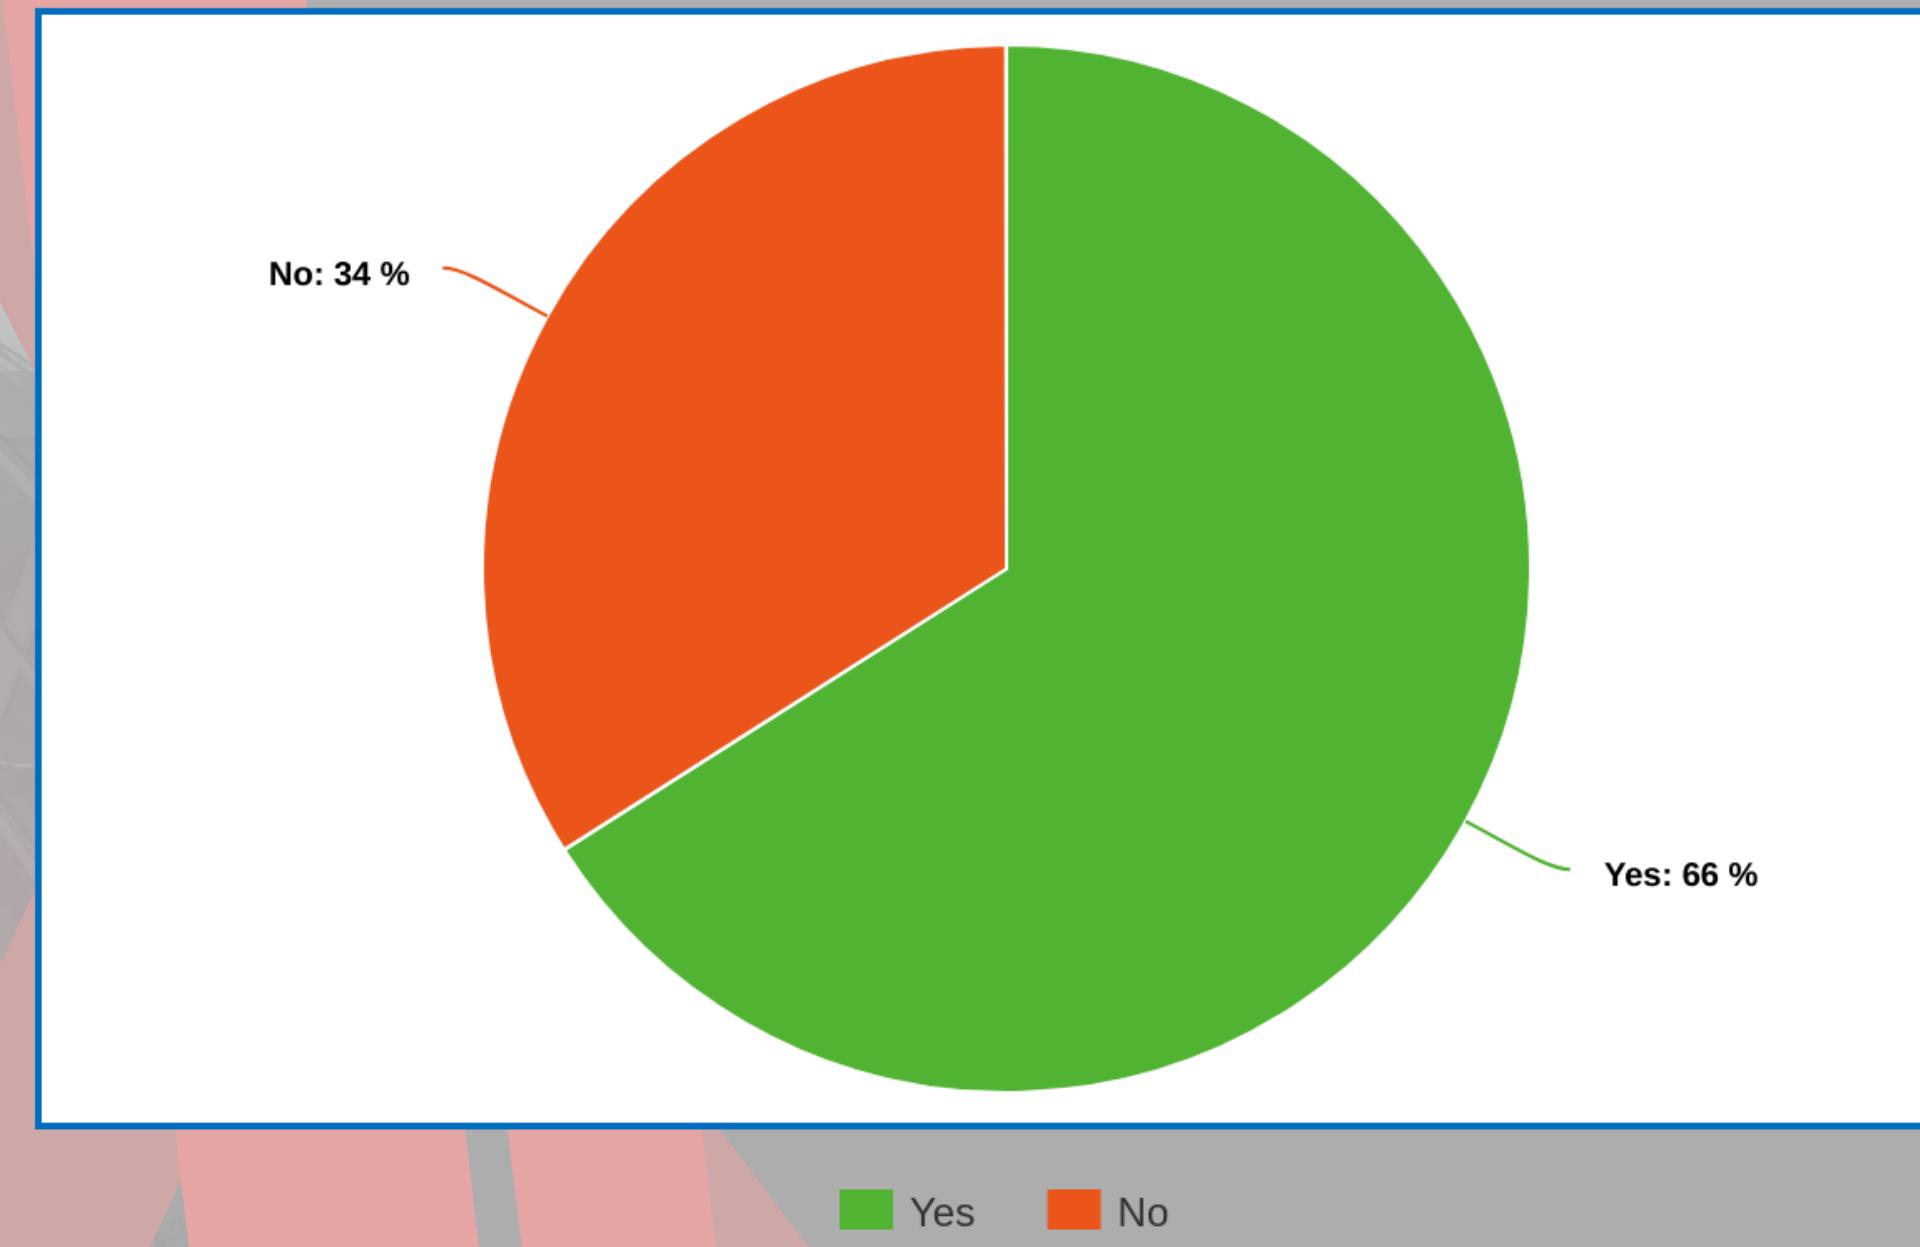

# SUMMARY REPORT (50 RESPONDENTS)

**What types of academic-related files do you find most challenging to organize and access?**

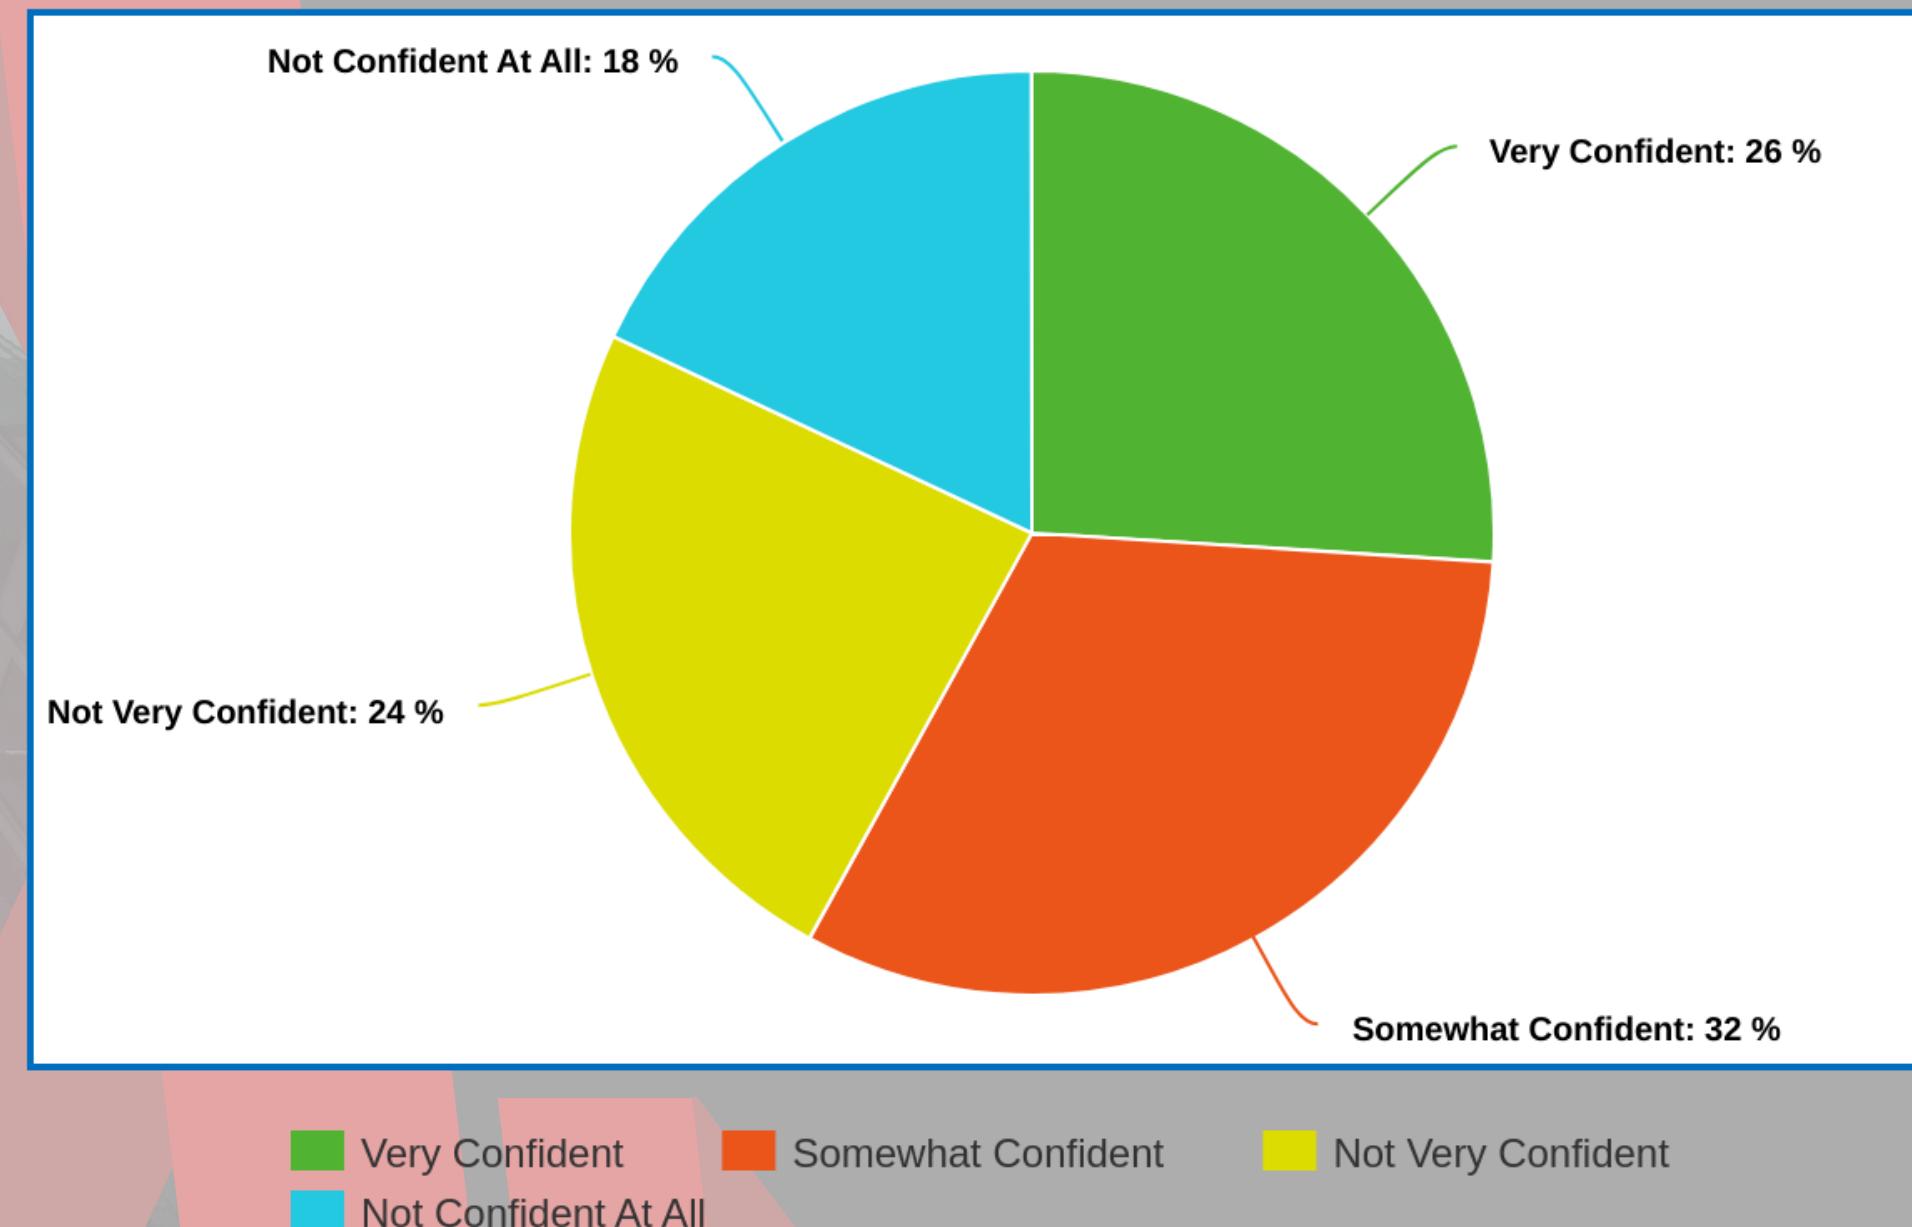

# SUMMARY REPORT (50 RESPONDENTS)

**Have you ever faced issues with losing or misplacing important academic files?**

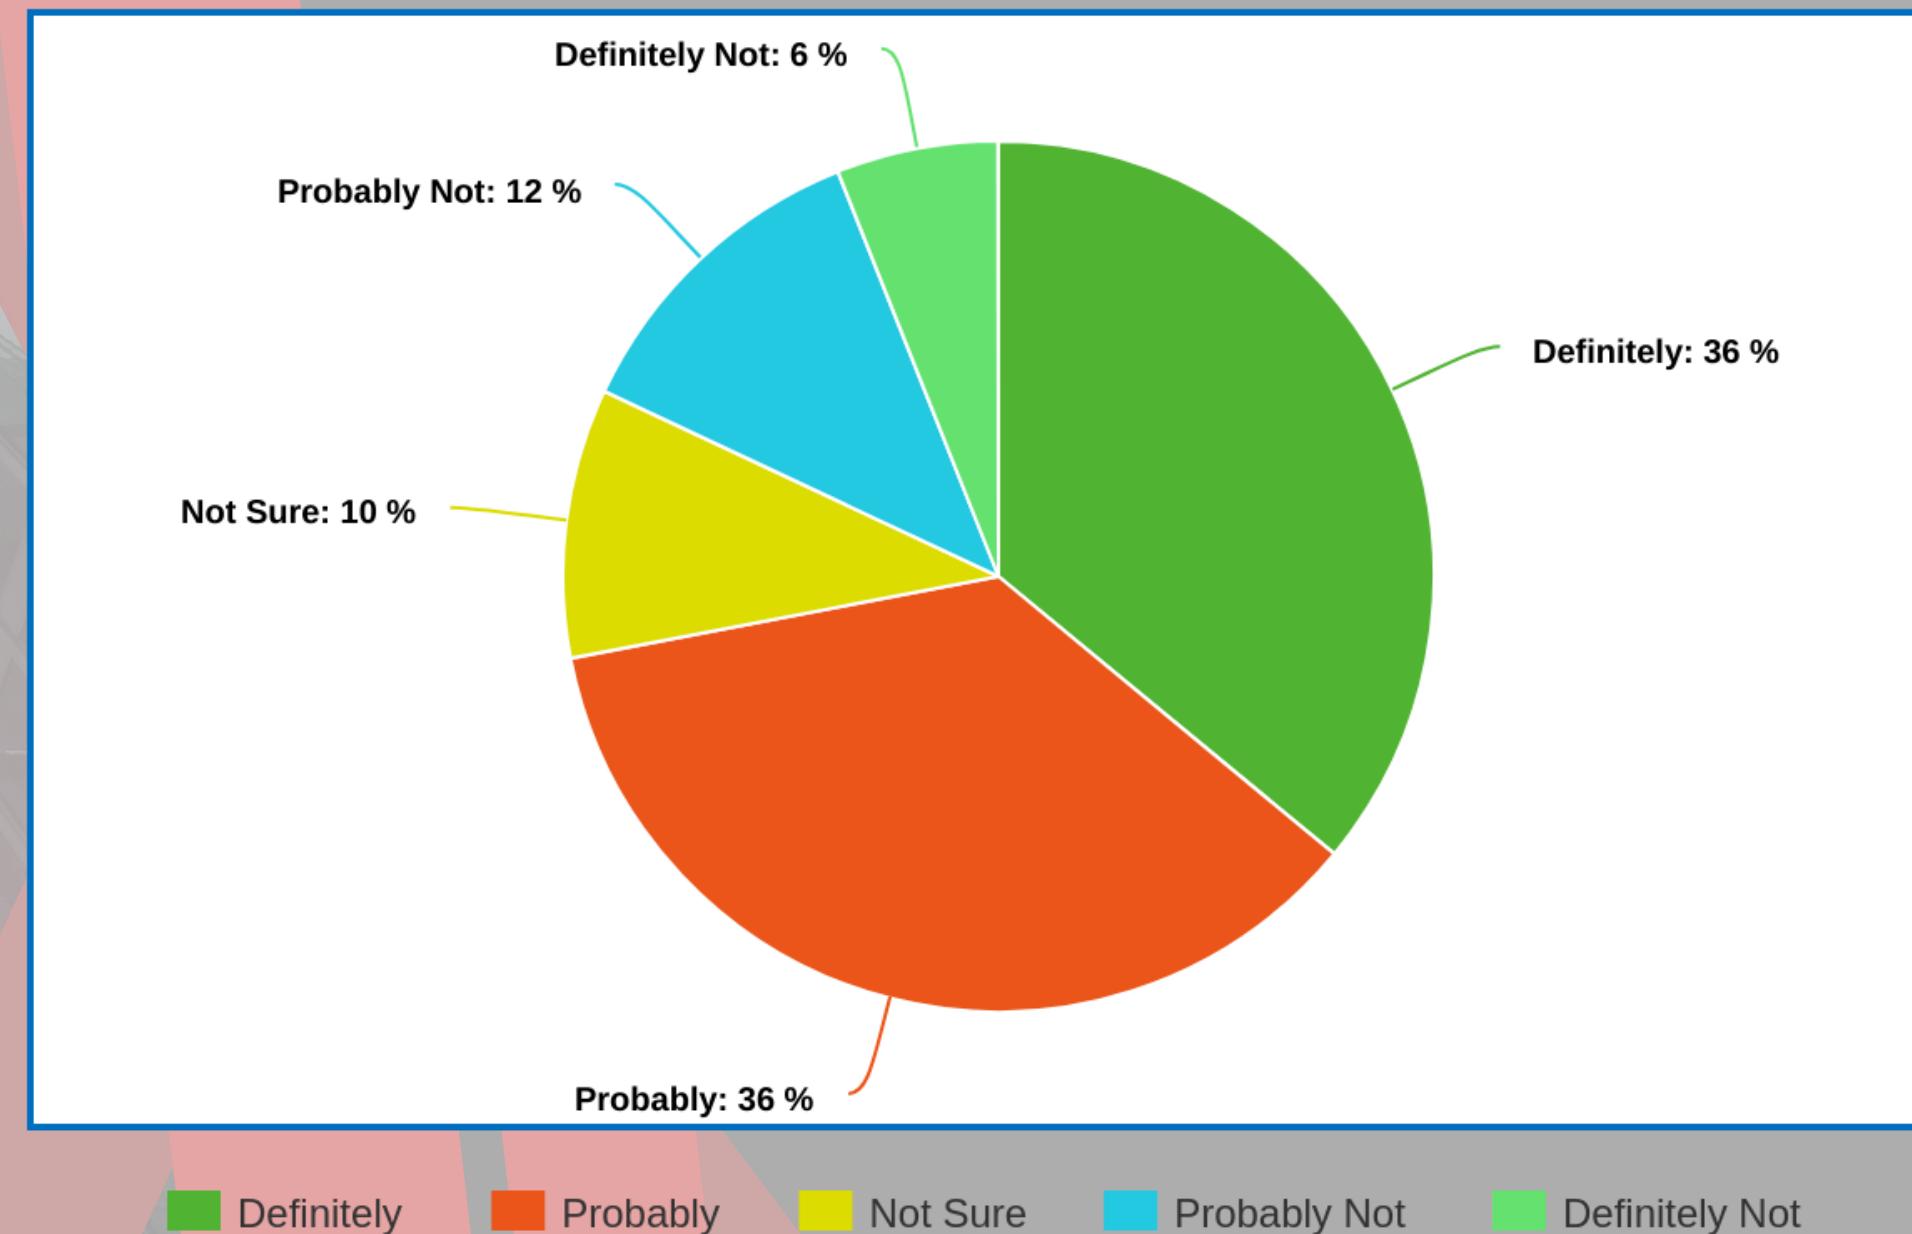

# SUMMARY REPORT (50 RESPONDENTS)

**How confident are you in your current method of backing up personal files like photos, videos, and other documents?**

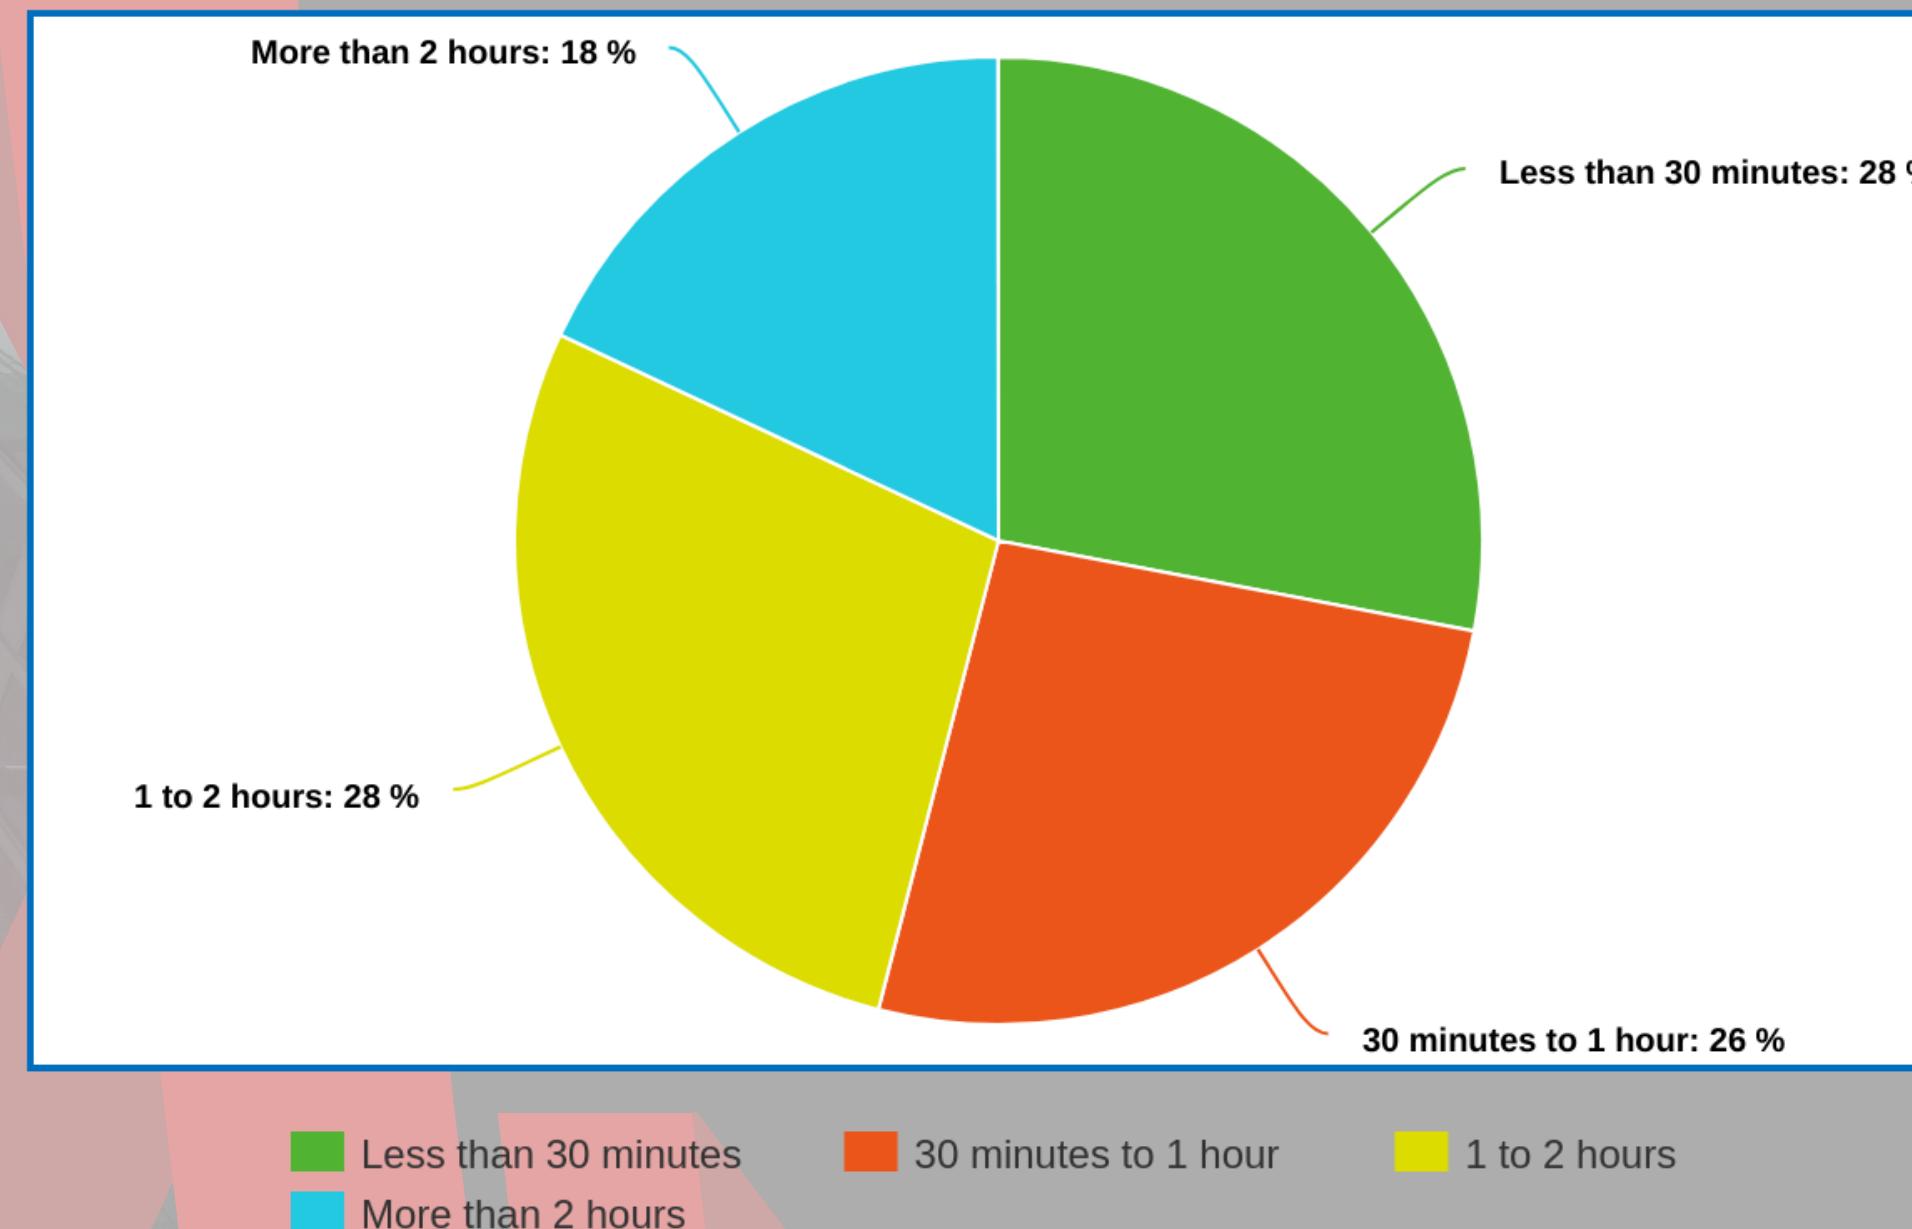

# SUMMARY REPORT (50 RESPONDENTS)

**Would having a centralized storage system for both academic and personal files improve your overall organization and productivity?**

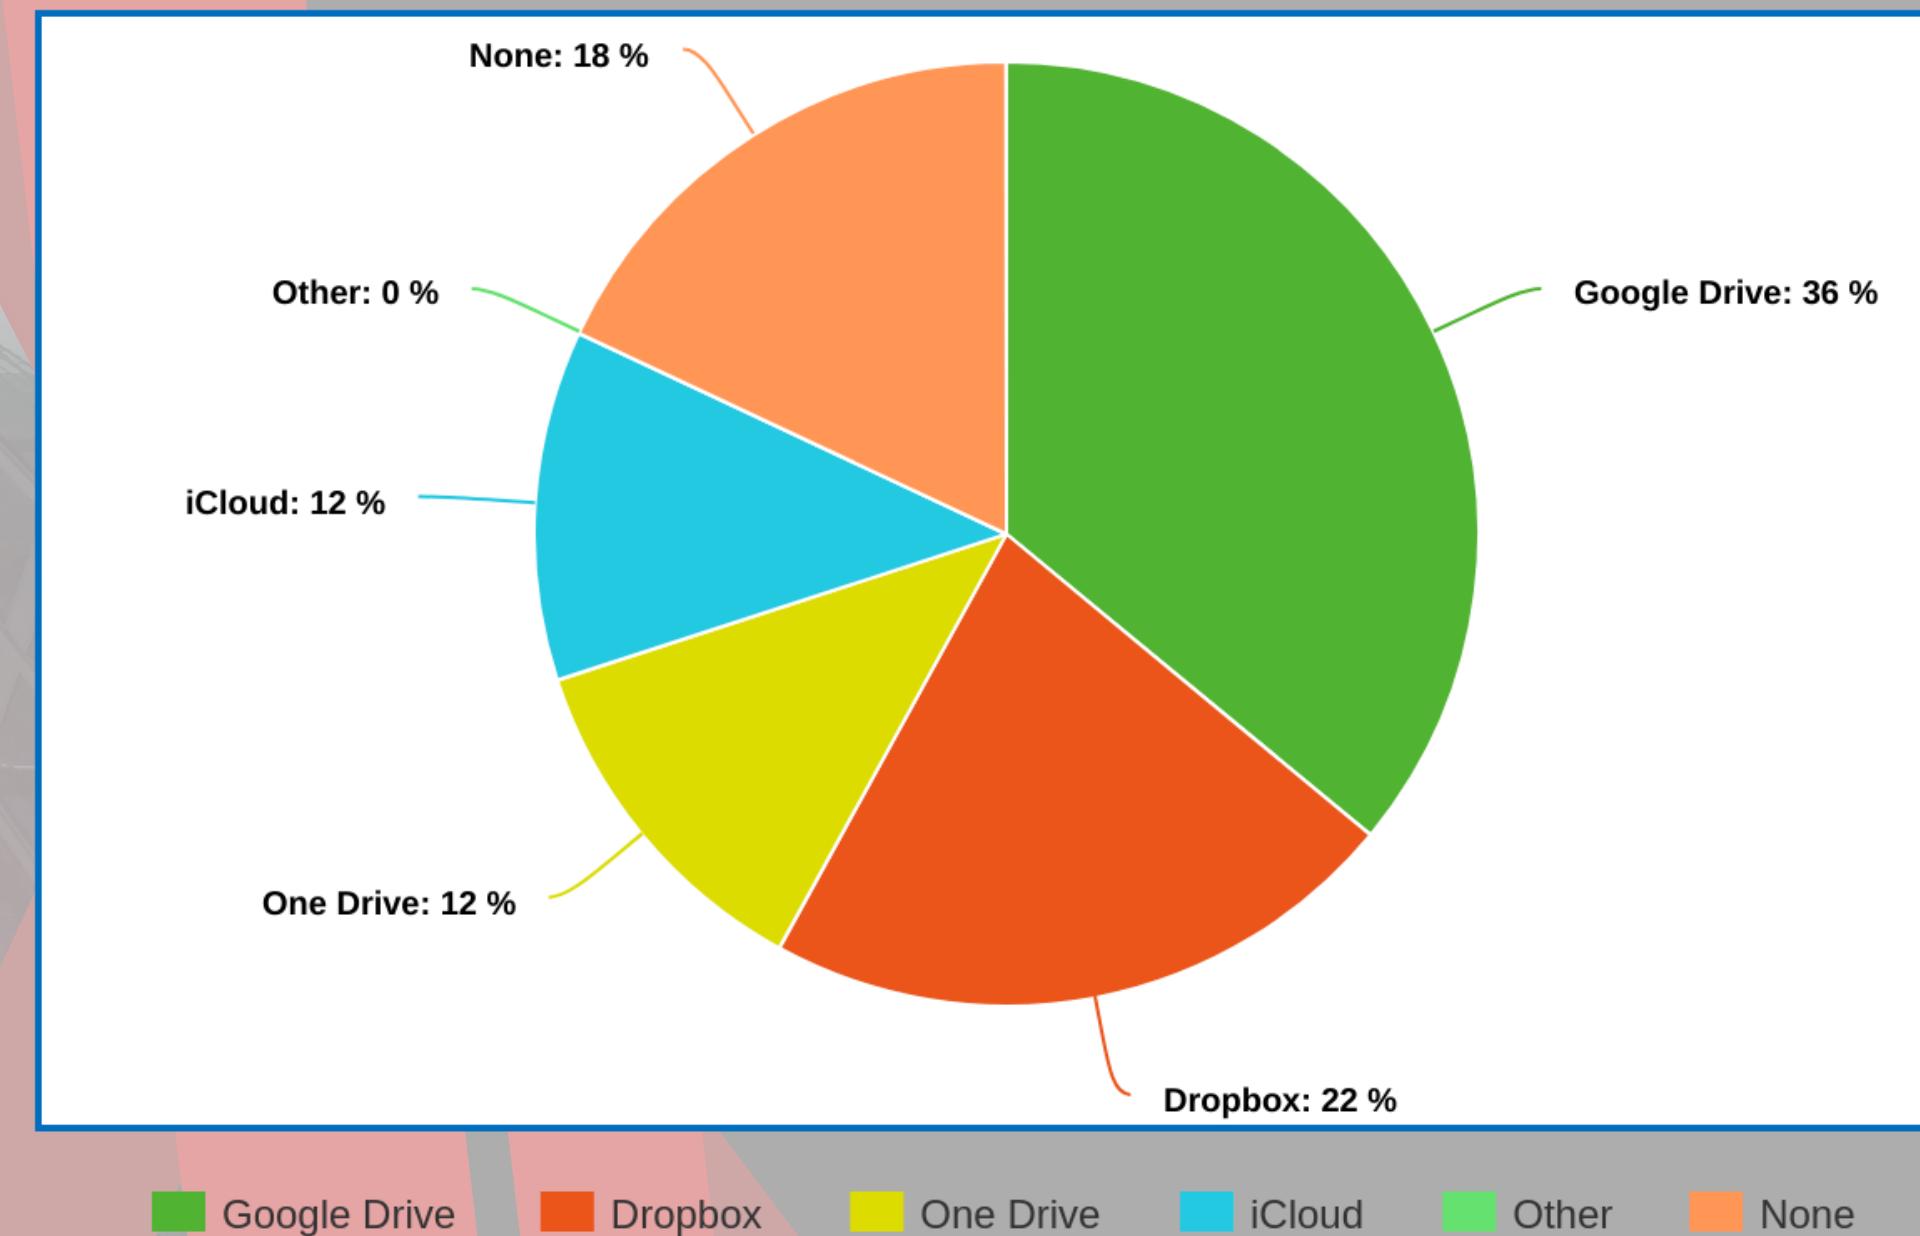

# SUMMARY REPORT (50 RESPONDENTS)

**How much time do you spend searching for specific files or documents on average per week?**

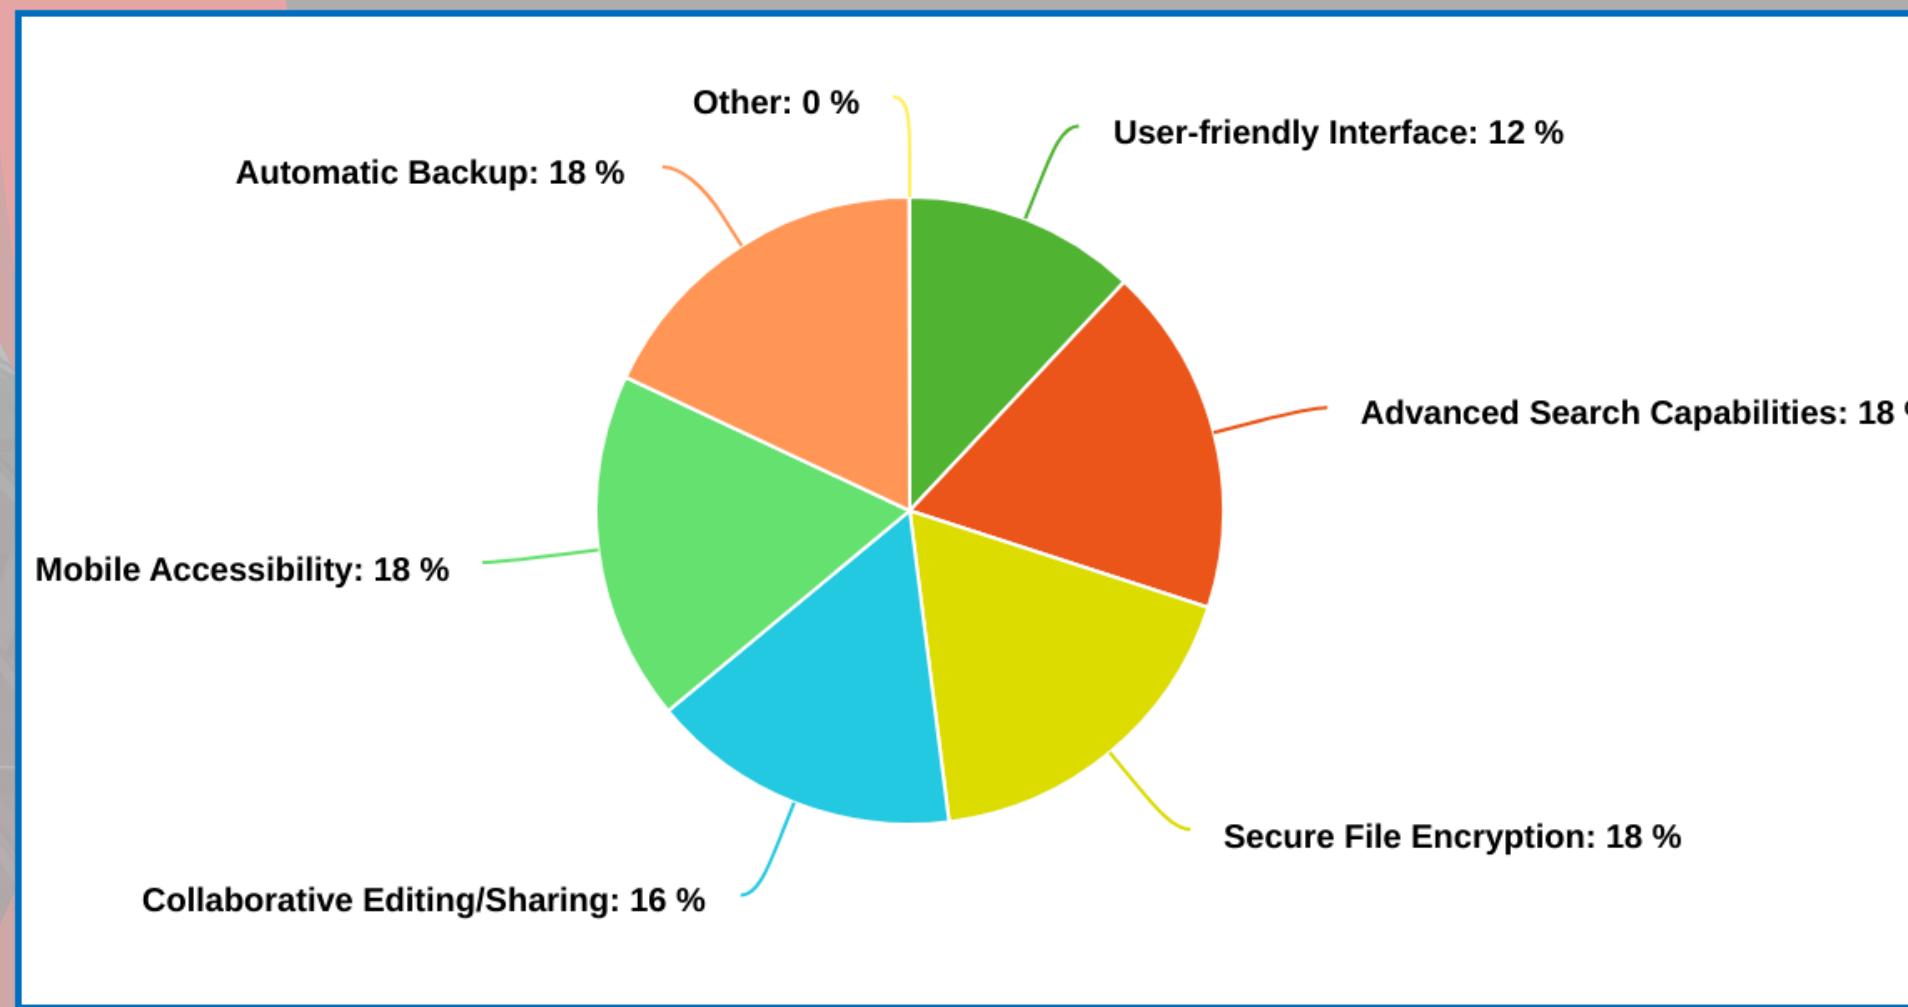

# SUMMARY REPORT (50 RESPONDENTS)

**Do you currently use any online file storage platforms? If so, which ones?**

# SUMMARY REPORT (50 RESPONDENTS)

**What features do you find most important in a file storage system? (Select all that apply)**

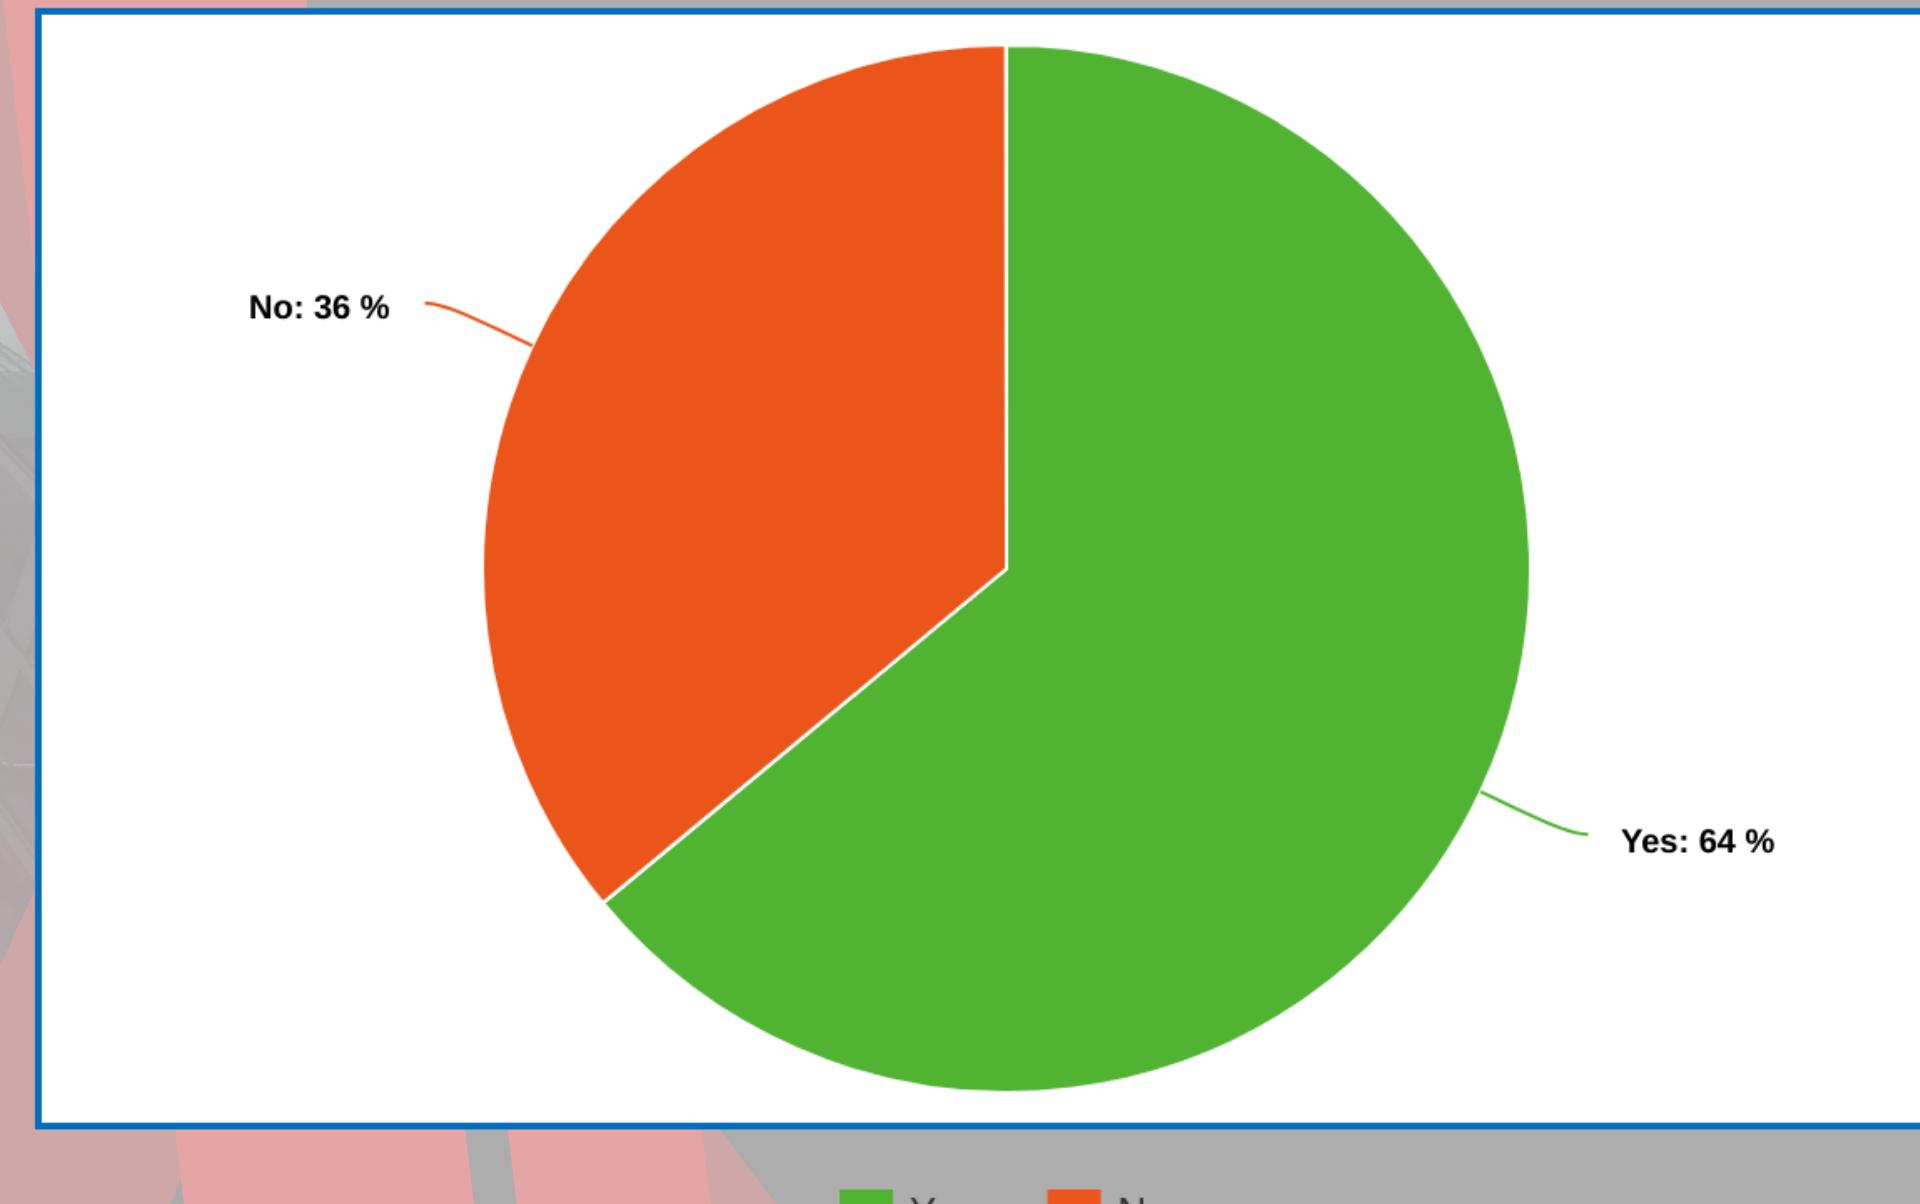

User-friendly Interface  
Collaborative Editing/Sharing  
Other

Advanced Search Capabilities  
Mobile Accessibility

Secure File Encryption  
Automatic Backup

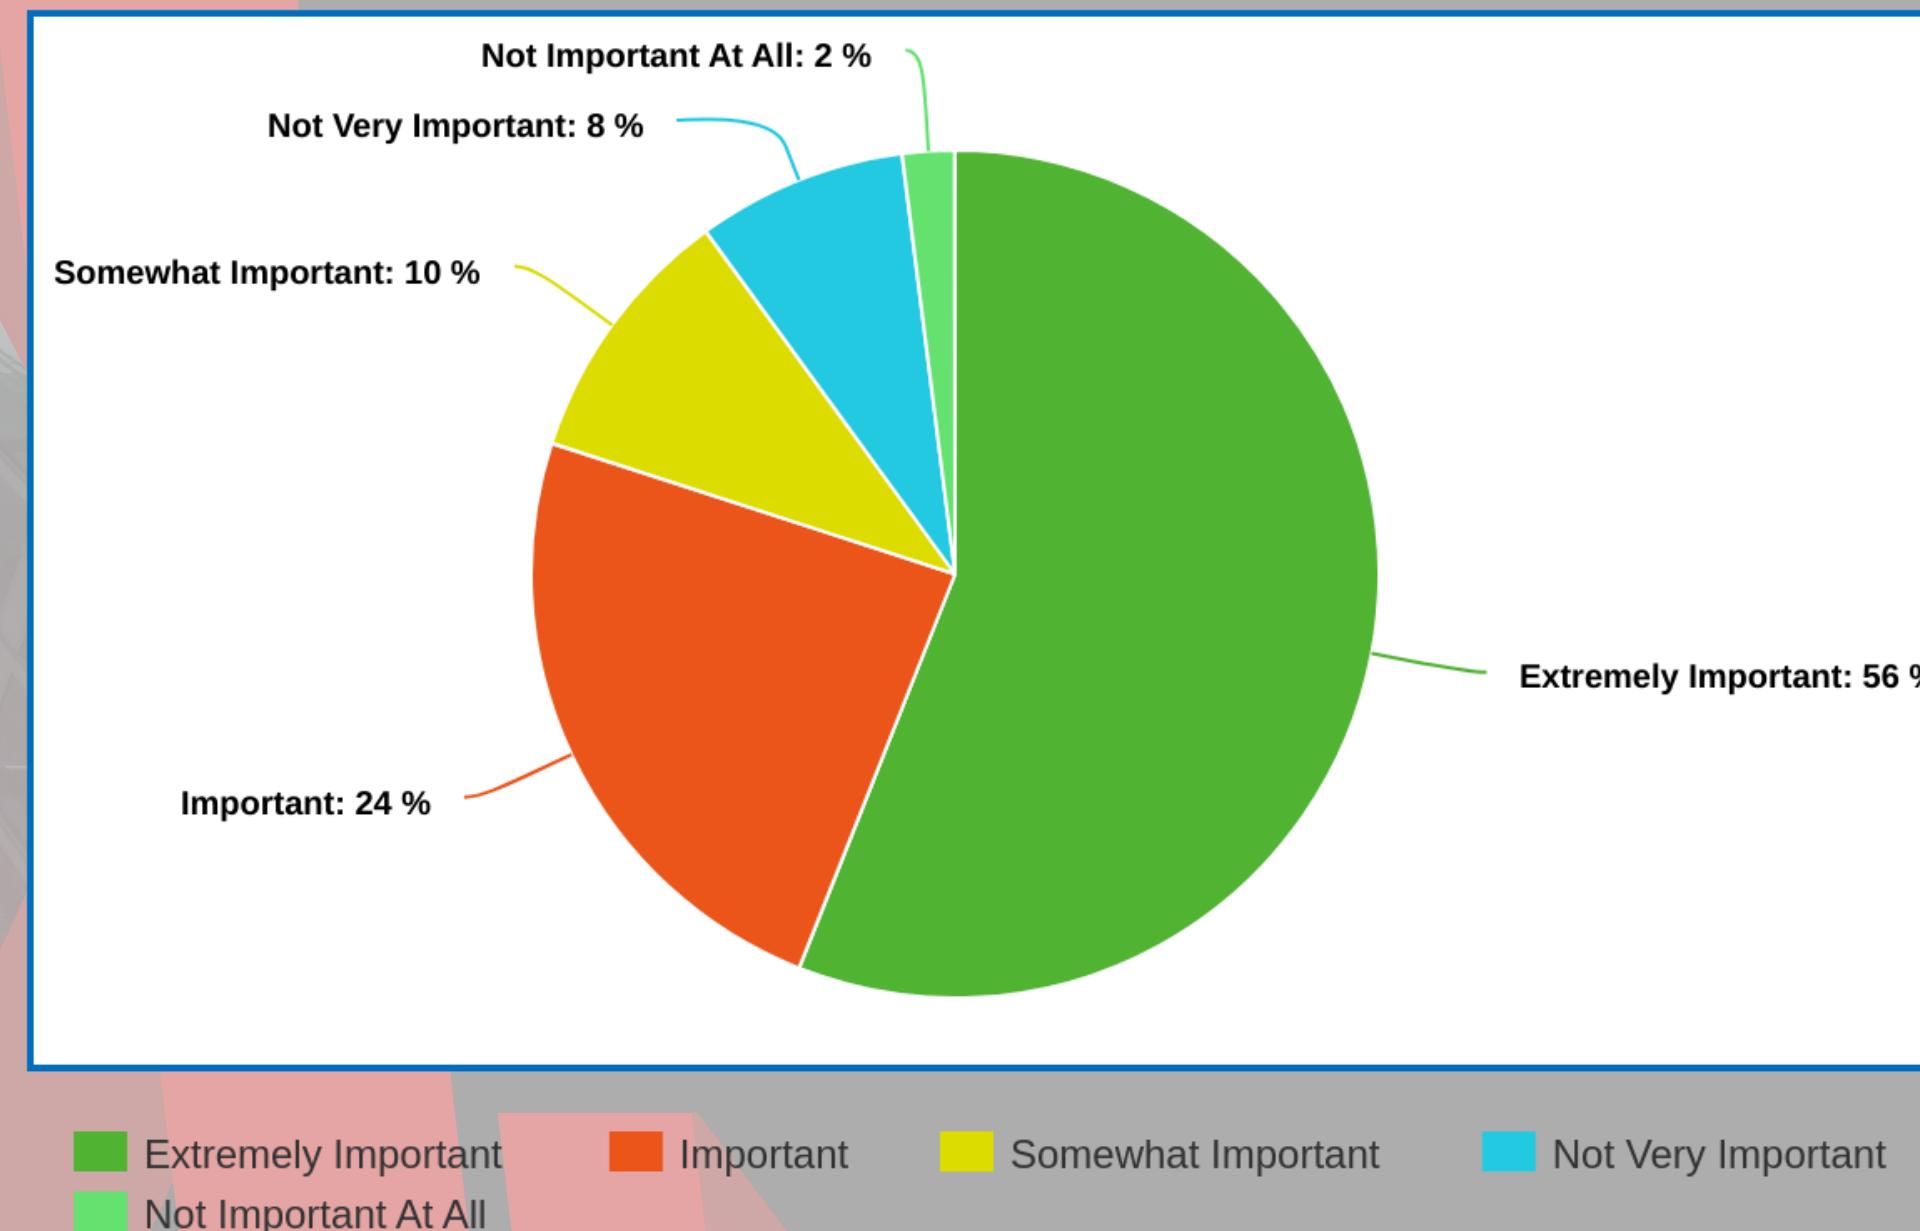

# SUMMARY REPORT (50 RESPONDENTS)

**Have you ever encountered privacy concerns when sharing or storing files online?**

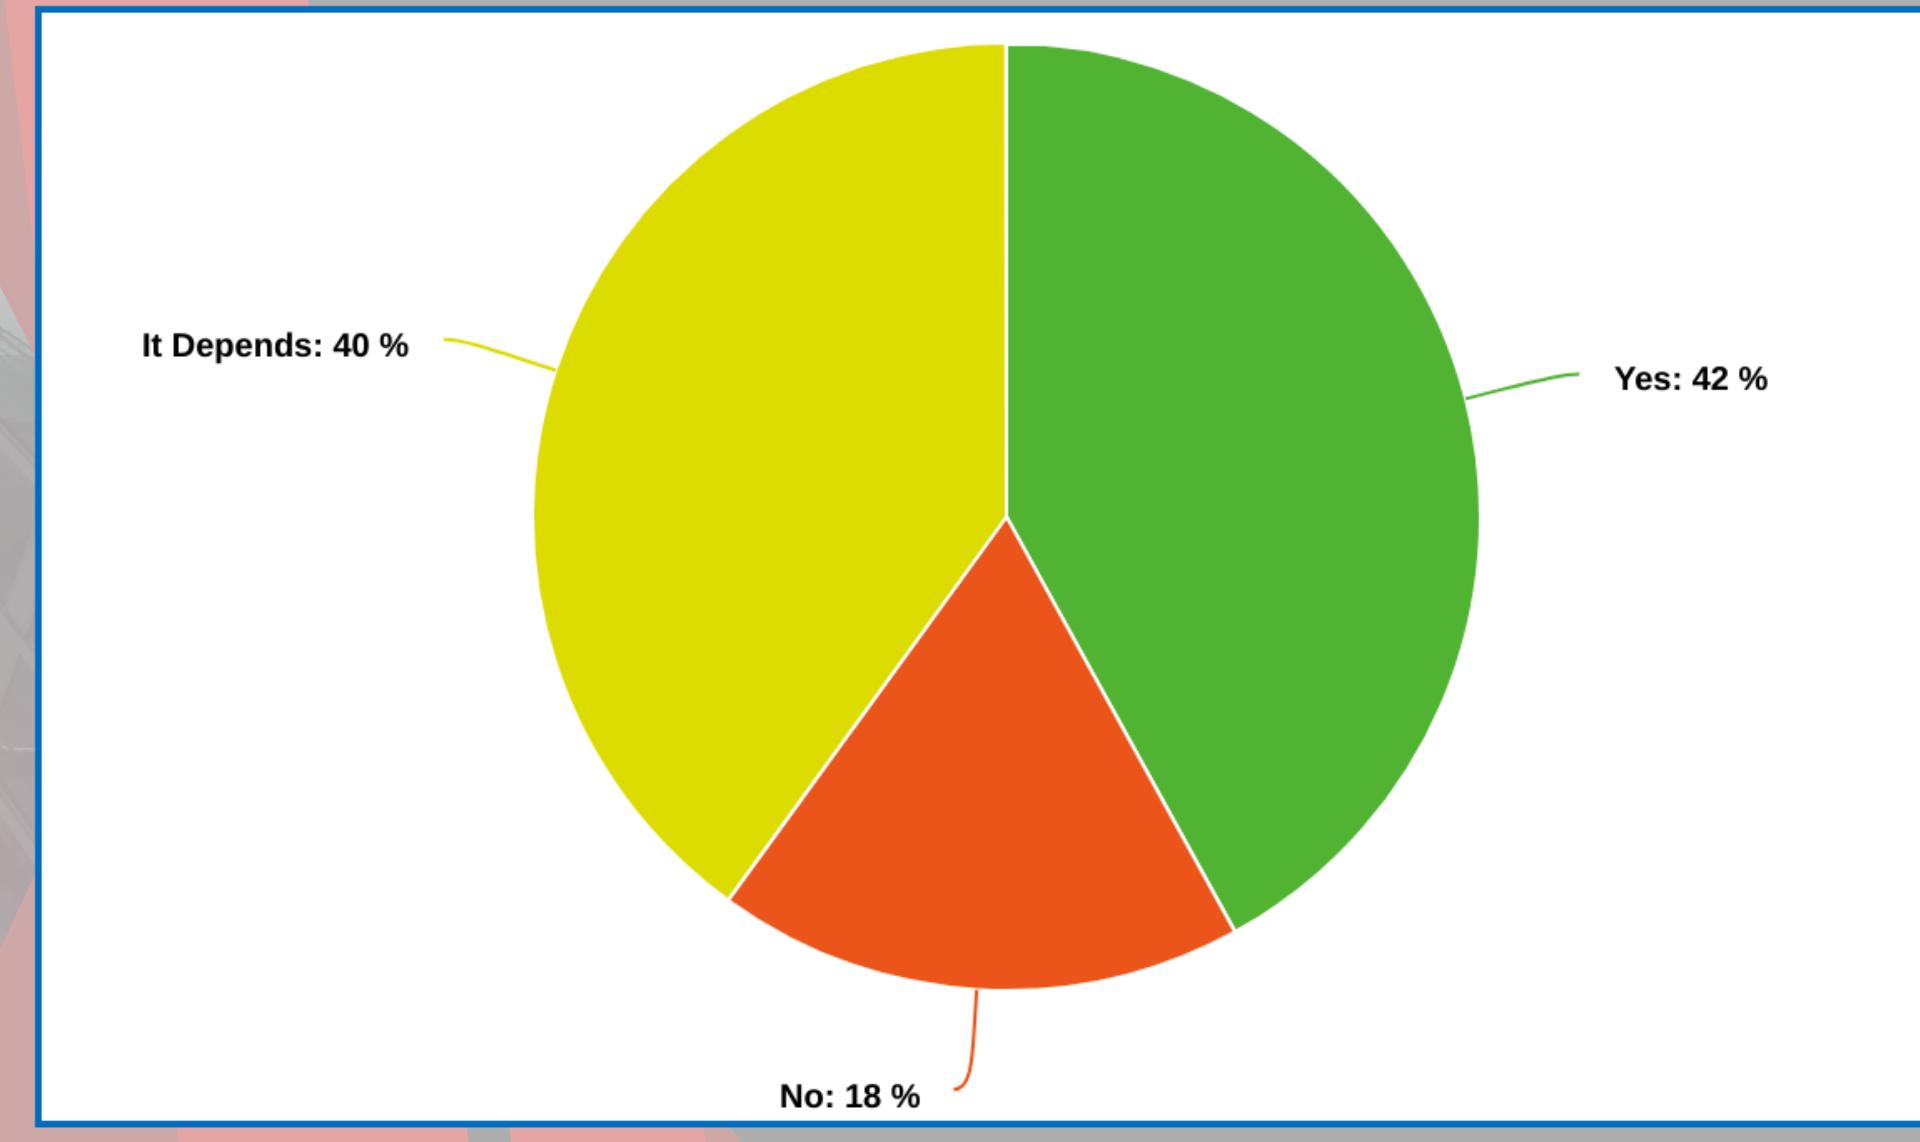

# SUMMARY REPORT (50 RESPONDENTS)

**How important is data security to you when choosing a file storage solution?**

# SUMMARY REPORT (50 RESPONDENTS)

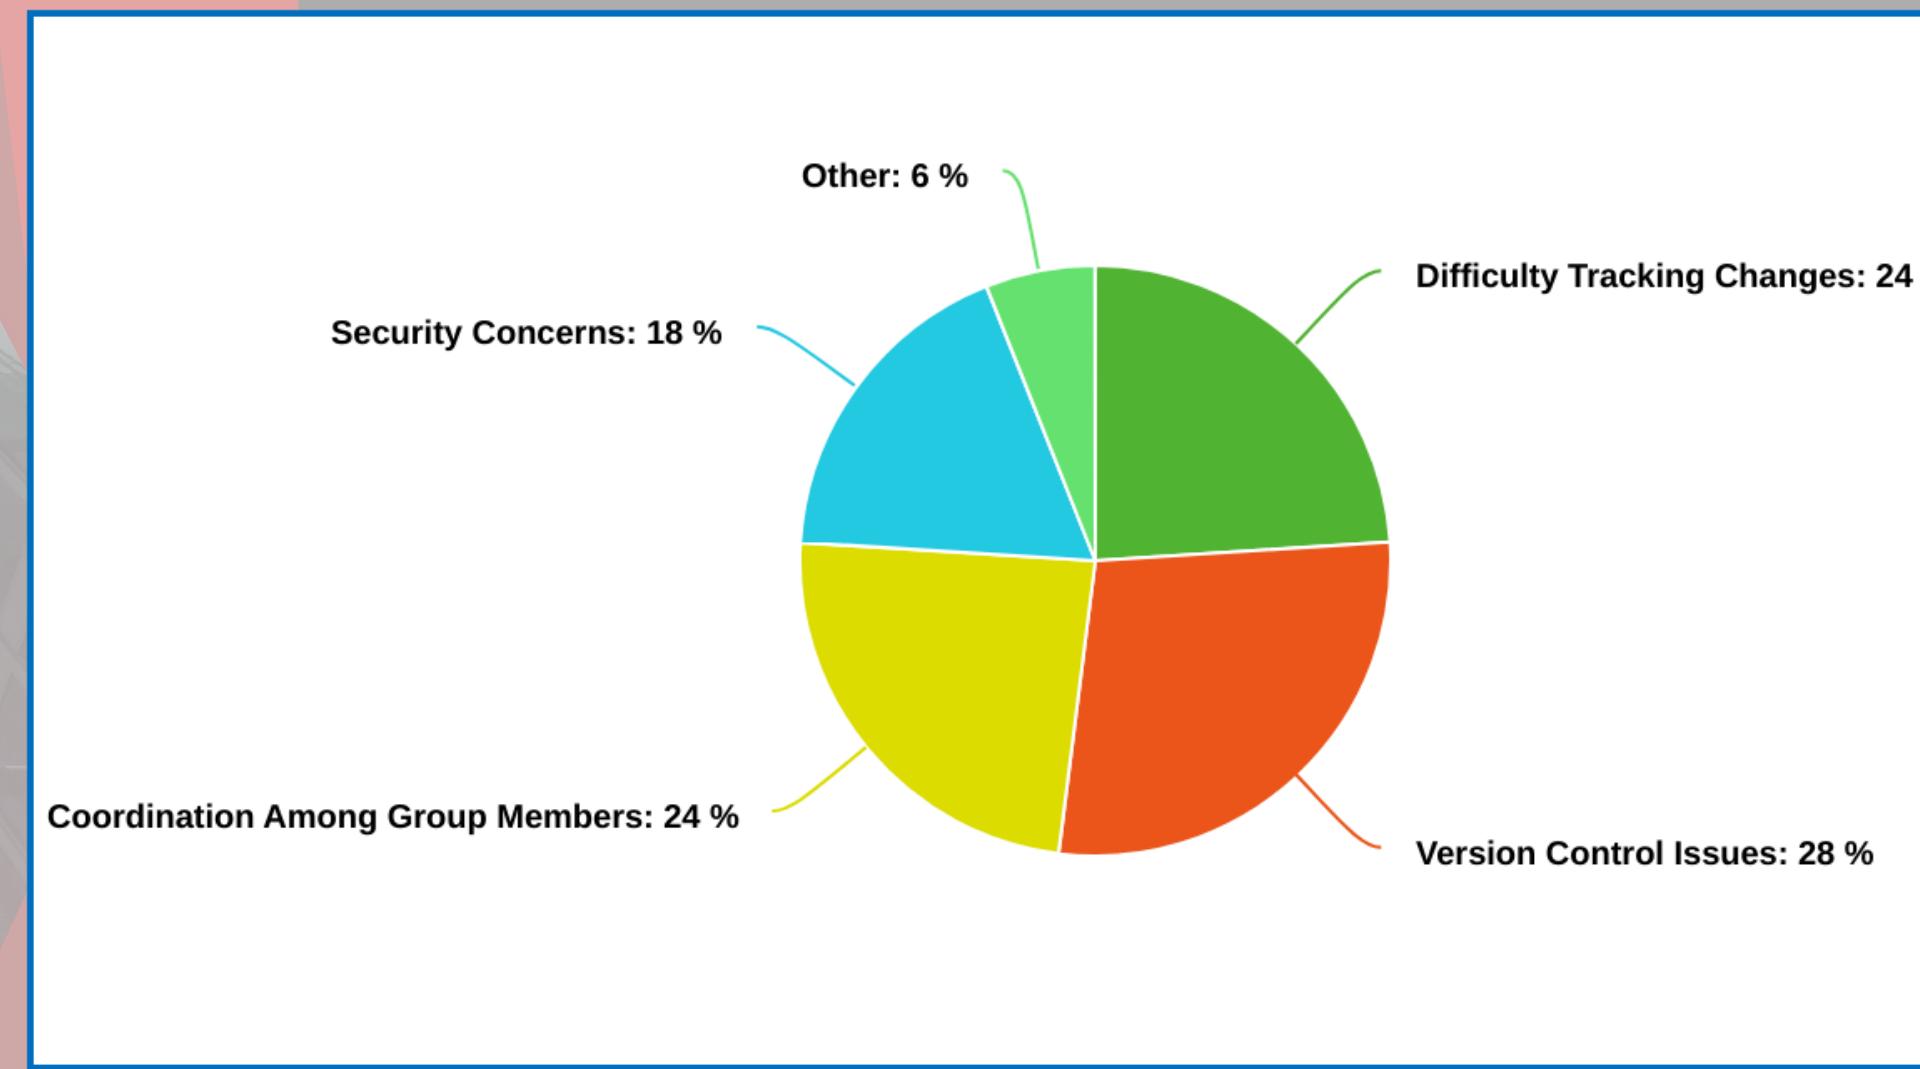

**Would you be more likely to use a file storage system provided by your college institution compared to third-party services?**

[Legend: Green square = Yes, Orange square = No, Yellow square = It Depends]

# SUMMARY REPORT (50 RESPONDENTS)

**What challenges do you face when collaborating on group projects that involve sharing and editing files?**

Difficulty Tracking Changes

Coordination Among Group Members

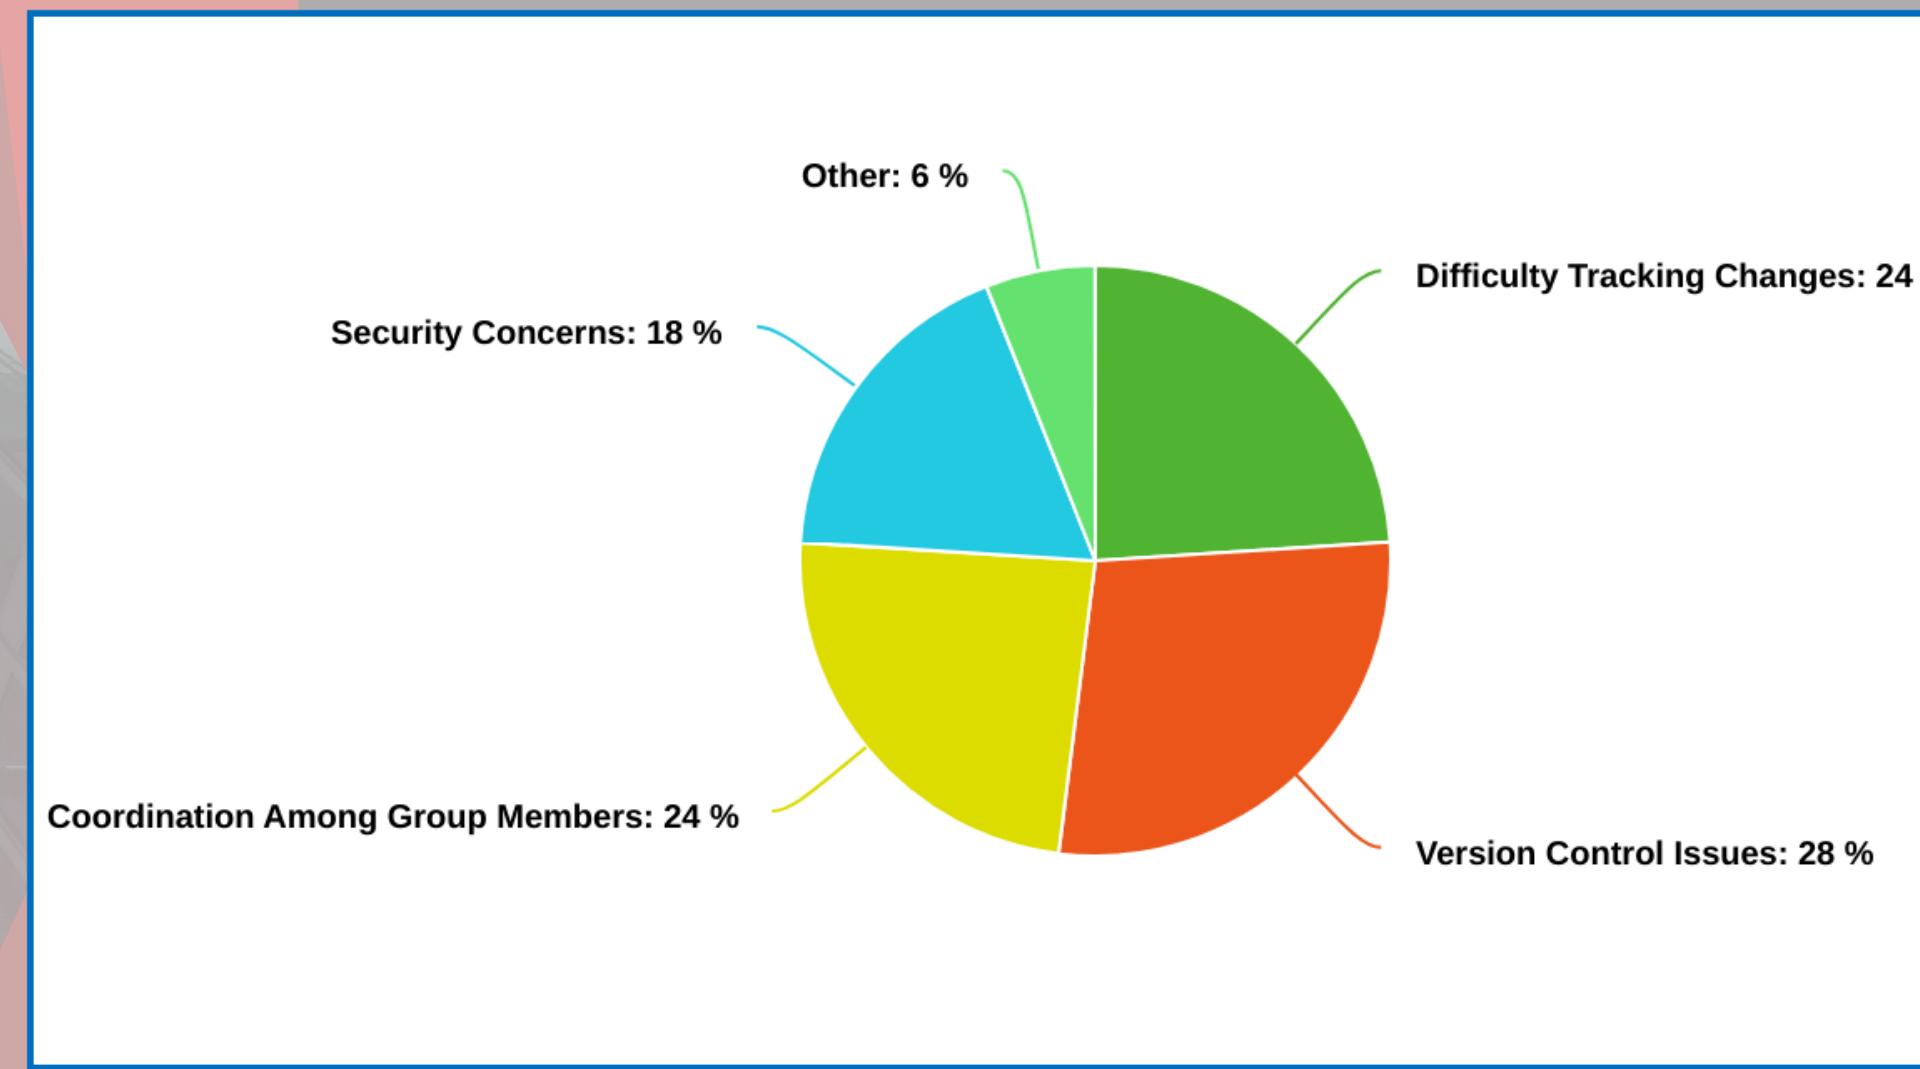

Version Control Issues

Security Concerns

Other
